AIR Valve:								
Sl. No	IS code Reference with brief description	Name of the Vendor/ Manufacturer	Address & Locality of Unit	Vendor Registration Proceeding No. & Date (if any)	Validity of Registration if applicable	Reference BIS License (If any)	Contact number	Email. ID
1	Manufacture, supply and delivery of Single Chamber DI Air Valve with Body and cover in Ductile Iron of grade GGG-40/ SG-400/15 or GGG-50/SG-500/ 7 or equivalent grade as per I.S.389 6-part2-1985 and subsequent revisions. All internal parts such as float, shell etc.,all cover bolts, of stainless steel, and Gaskets and seals of EPDM food grade quality Epoxy powder coating (EP-P) inside and outside colour blue. Drilled as per requirement of the dept. (25mm to 300mm) and its amendments.	-	-	-	-	-	-	-
Gate Valves:								
Sl. No	IS code Reference with brief description	Name of the Vendor/ Manufacturer	Address & Locality of Unit	Vendor Registration Proceeding No. & Date (if any)	Validity of Registration if applicable	Reference BIS License (If any)	Contact number	Email. ID
1	Manufacture, Supply and delivery of DI D/F Gate Valves (soft seated) Resilient seated soft sealing gate valves (Sluice valves) with body bonnet of ductile cast iron of grade GGG-40/ SG- 400/15 or GGG-50/SG-500/7 or equivalent grade as per IS 3896-part2-1985 and subsequent revisions, wedge fully rubber lined with EPDM food grade quality and seals NBR and the valves should be of vacuum tight and 100% leak proof with face to face dimensions as per BS5163- 89/ IS 14846-2000/ DIN 3202 F 4. All the valves should be with Electrostatic powder coating both inside and outside pocket less body passage. Drilled as per the requirement (50mm to 600mm) Dia and its amendments	-	-	-	-	-	-	-

Multi jet (Domestic) AMR Water Meter								
i	Supply installation and satisfactory field testing of Multijet Inferential Dry Dial screwed end Water Meters conforming to latest editions of IS 779/ISO 4064 with ISI/MID marking (PN-10). The water meters shall be manufactured with copper can/non magnetic metallic register and IP 68 protection. The module must be connected to meter without wire. The same model of the meter must have passed life cycle/ Endurance test from FCRI after 2015.The meter should have IP 68 test report certificate conducted in FCRI. The RF based AMR accuracy test conducted at FCRI should also be submitted. The modules shall be warranted for 5 yearsbattery life. The Module or meter interface unit shall be Radio Frequency based. The remote reading shall be two way communicating. The module should be battery operated and external power supply should not be required. The readings should be obtainable by either walkby or drive by on Android device. The module shall be fitted on the meter wirelessly and shall be with IP 68 protection. The IP 68 test report for module should have been conducted at FCRI. The radio frequency shall be as per Dept of Communications, Govt of India and supplier should specify the frequency of the AMR on the module. In case the RF band is freeband, necessary	-	-	-	-	-	-	-

Sl. No	IS code Reference with brief description	Name of the Vendor/ Manufacturer	Address & Locality of Unit	Vendor Registration Proceeding No. & Date (if any)	Validity of Registration if applicable	Reference BIS License (If any)	Contact number	Email. ID
	documents from Dept. of Telecom, Govt of India shall be submitted along with declaration on a Rs.100 Stamp paper mentioning the band. The RF based meter reading software should have sync facility to upload the data back to CLOUD server after reading the meters from site using GPRS/Wifi. The AMR meters shall carry warranty of atleast 5 years from the date of delivery/date of installation which ever is earlier. The meter, module and AMR software shall be from the same manufacturer.Lot samples of the meters supplied shall be tested as per IS779 at FCRI for accuracy of meters. The rates are excluding GST and its amendments.							
<u>Woltman type (Bulk) AMR Meter</u>								
ii	Supply, installation and field testing of Horizontal Woltman type hermetically sealed type water meters with IP 68 protection (PN-10/ PN-16) . The meters shall be manufactured as per ISO 4064 - 1:1993 with MID marking. The meter must have passed life cycle/Endurance test from FCRI.The module should be batteryoperated by inbuilt. The data logger shall be capable of transmitting data on daily bases to central server through GSM/GPRS. The AMR data hourly shall be collected by MIU and stored. The MIU shall be connected to Data logger.							

Sl. No	IS code Reference with brief description	Name of the Vendor/ Manufacturer	Address & Locality of Unit	Vendor Registration Proceeding No. & Date (if any)	Validity of Registration if applicable	Reference BIS License (If any)	Contact number	Email. ID
	<p>The data logger should have inbuilt battery.The AMR meter should be capable of providing data like reverse flow, tampering, daily flow rate distribution. The System shall send alerts for blocked meter, flow rate above limit, pressure below or above limits, back flow detection. The meters shall be installed with CI strainers. The AMRmeter and battery shall carry warranty of atleast 5 years from the date of delivery/date of installation which ever is earlier.The data shall be accessable on web server as required by the Client. The rates are excluding of GST and its amendments.</p>
